Caribbean Blue Pools & Spas

Kinnelon, New Jersey may not be in the heart of the Rocky Mountains but you would never know it judging from the backyard pool Caribbean Blue Pools & Spas carved from the rugged terrain of this beautiful home. Built

into the mountainside, the free-form pool looks as if a divine force has placed it there, like a natural pond you might stumble on in the woods.

Working with a landscape designer on the challenging mountain-meets-forest site, Caribbean's pool plan also featured a harmonizing raised patio. In-keeping with the natural essence of its environment, the pool's interior was finished in a cornerstone gray color that gives the pool its earthy luster. Coupled with a waterfall and spa, the pool area is nothing short of spectacular, especially when the summer breeze blows through the ornamental grasses.
